Re: Docket No. 98N-1265

As a voter and a consumer of health care services, I want to declare my strong disapproval of the Memorandum of Understanding published by the FDA on January 21, 1999.

It severely infringes on the rights of physicians and patients to obtain healthcare products from the provider of their choice. It also infringes on the rights of compounding pharmacists to serve the health needs of the public. There should be no restrictions on the delivery of compounded medications *prescribed* for me by a *physician*, regardless of where I live or travel.

I sincerely appreciate the valuable work done by the FDA, but, as you well know, this issue *does not involve my safety* as a healthcare consumer. I strongly urge you to **amend this MOU!**
